

## Form create inspiring fit outs which improve the performance of our client's businesses

We do this by transforming existing environments through office refurbishment and delivering bespoke fit-outs designed intelligently and built around the needs of the end user.

We work closely with design teams and consultants both on a traditional and office design-and-build basis to ensure that each and every project is delivered on time and on budget.

We work with a wide range of organisations including building occupiers, universities, schools, landlords and investors on a variety of projects. from high-end workplace fit-outs to sympathetic change-of-use and refurbishments.

### Managing Director Steve Potter says:

"Carlisle has long been a favourite festival of mine and having the opportunity to provide sponsorship to Nick Westgarth for the event is indeed a privilege. Looking at this year's lineup, it would seem that the money has been well spent. Every band deserves their place at the festival and I am sure they will give their all for the appreciative audiences.

Being a board member of the UK Blues Federation provides me with a great opportunity to further support and promote blues music in the UK and we hope that our involvement in the UK Blues Awards, the UK Blues Challenge and the new Blues Fuse Emerging Artists Initiative will help to further promote this great genre of music.
